Democrats propose to "relieve" the people by removing the "grinding tax" on wool, of which we imported to the value of \$19,689,108

in 1892. But then they turn round and propose to tax tea, coffee and sugar, of which last year's imports were valued at \$24,799,450

That is, for every dollar's worth of "untaxed" wool they will impose new taxes on \$13 worth of other products.—New York Press.

The antics of "Buck" Kilgore are implying even Democrats to sigh for the master hand of "Czar" Reed.

The latest piece of important information is that Grover Cleveland has been elected President. It comes from no less an authority than the Vice-President of the United States.

At a public meeting in Simeon, Canada, the other day 372 votes were cast for annexation, 6 for Canadian independence, 4 for imperial Federation, and 17 for the status quo. Who says we can't have Canada?

When the striking street railway employees of Wheeling, W. Va., resorted to violence in driving non-union men from the cars and beating them into the bargain, they placed their cause beyond the possibility of success. If a strike cannot be won by peaceful and lawful means it cannot be won at all.

What with Mr. Cleveland endeavoring to force the present Congress to revoke the Sherman Silver Act, with Western and Southern Democratic Legislatures adopting resolutions against repeal, and with "Dave" Hill standing "in the middle of the road" the "unanimity" of the Democratic party is something beautiful to behold.

Free-trader Schoenhoef, arguing for a duty of two cents a pound on sugar, asserts that the opposition to it is based on the "merely sentimental notion" of "a free breakfast table." The working-man will not see much sentiment in it when he is called upon to pay a 40 per cent. tax on every pound of sugar his family consumes.

The Boston Herald declares that half of the present pension payments are "indiguous" and "quite a part" of the rest are unnecessary. The Boston Herald proposes to have "Free-trade reform" if every old veteran has to go to the poorhouse. One thing is certain—the old veterans would have plenty of company in such an event.

The re-election of Michael Davitt to Parliament is a favorable omen for home rule. Mr. Davitt possesses the confidence and love of the Irish people to a remarkable degree. Sprung from the common people, he understands the character, needs and aspirations of the Irish masses perhaps more accurately than any other Irishman living.

Sir Edward Sullivan estimates that 20,000,000 persons, an actual majority of the whole people, depend upon agriculture for a livelihood in the United Kingdom. Since they are awakening to their crying need of Protection, and have the numerical strength to enforce the demands, it is plain that Free-trade by no means occupies an impregnable position in Great Britain.

Our new vessel, and that a mere gunboat, to cost over \$400,000, is all the "economical" House proposes to authorize toward the upbuilding of an American navy. Contrast this with the manifest appropriation of \$16,000,000, ostensibly for rivers and harbors, but merely for the benefit of selfish local interests and to reward local politicians, and you can get an accurate idea of Democratic "economy."

WOMAN'S CHANGING FASHIONS.

When hoops were worn by woman fair.

A nuisance they were found:

One ran against them everywhere.

The hoops were always round.

And they retarded, it was clear,

The rise of womanhood,

For by the fashion to her sphere

Hoops were worn.

When hoops went out, by some cracked brain.

Hoop bustle was designed.

And woman's fashions, it was plain,

Were getting quite behind.

The bustle also had its day.

Though to it they adhered.

Years, and when it passed away

There came the hoop skirt.

Two years without demur;

To fashion woman long had chanc.

Now fashion clung to her.

In time the train became the style,

And every woman wore it;

In fact, the fashion for a while

Carried all before it.

And that the year's novelties bring

Which flourish and decay;

The corset is the only thing

That ever came to stay.

DURING the past twenty years \$28,000 divorces have been granted by the courts of the United States, 90 per cent. of them to women. The next administration's plan of campaign has already been mapped out. Events have made it possible to give a substantially increased interest to the Democratic program.

It can be announced positively that there will

not be an early extra session of Congress. An extra session will in all probability be called, but it will not be earlier than September nor later than October. According to the present plan, Mr. CLEVELAND and his Secretary of the Treasury, Mr. CARLISLE, will devote a large share of their attention during the spring and summer to framing a Revenue Tariff measure, which it is proposed to present complete to the Fifty-third Congress when it meets.

The forthcoming measure is likely to be radical enough in its assault on American industries to satisfy the most pronounced Free-traders in the Democratic party. Mr. CARLISLE's hostility to every form of Protection has been frequently and frankly avowed. It may be assumed that his will be the hand that will frame the new bill, and Mr. CLEVELAND, who admires his complete ignorance of the tariff eight years ago, will be guided by the opinions of his Secretary of the Treasury. At least one definite point about the measure is known. It will contain a provision for abolishing the foreign wool growing industry by admitting foreign wool absolutely free of duty. The damage to other domestic industries will be widespread, but it is apparently the purpose of the Democratic leaders to destroy utterly the wool growing interest and deprive hundreds of thousands of American farmers of an important source of income.

The Cleveland-Carlsbad Free-trade bill, once before Congress, a sharp conflict may be expected in regard to the date of putting it into operation. July 1st, 1894, has been fixed upon by the more conservative Democratic leaders as the date for making the measure operative. The radical Free-traders of the Democratic rank and file in Congress will assuredly demand that the party shall live up to its Chicago platform and sweep away the Protective system without delay. The contest between Democratic factions will have comparatively little interest for Republican Congressmen. The full responsibility for conducting the government will rest on the Democratic party, which will have control of all its branches for the first time since the civil war began. Fidelity to

GIGANTIC STEAL.

Wabash System Robbed By Its Trusted Employees.

The Freight Cars Entered by the Removal of Bolts,

Which Prevented Destroying the Seal and Covered Up the Robber's Tracks
—Goods of Every Description to the Amount of \$200,000 Are Taken.

KANSAS CITY, Mo., Feb. 13.—For the past two years the Wabash Railway Co. has been the victim of the most gigantic stealing plot from which any railway ever suffered. During that time the company has lost from freight cars and mobile property, at their last description, the total value of which will foot up no less than \$200,000 as far as now traced, and it may amount to a great deal more than that. The officials of the company knew they were being visited by a bold and clever gang of thieves, but as far as they would, they could not locate the place or the men. Three months ago the master was placed in the hands of two of the most noted detectives in this country, and they went to work on the case.

In one month they solved the mystery of how this stealing was done and learned the fact that the thieves were a band of conspirators, comprising as many as fifty trusted employees of the company, and a number of confederates who were used to dispose of the goods. The first thing noticed by the detectives was the manner in which the robbers covered up their tracks. Instead of tampering with the seals as is the usual way of pilfering a car these men did not leave any trace of their nefarious robbery of the cars it was soon learned that a smooth trick had been resorted to gain entrance. Here and there could be seen marks upon the runways showing that the door had been forced open. The lower runway the door would drop slightly and this would allow the door to free itself from the upper runway and then the clamp of the door, through which the seal was wired, would be blown by which the door could be wrenched open and thus allow a man to enter. Once inside, the most valuable freight which could be handled in small parcels was handed to the confederate, who would plan it until such time as it could be fenced. After sufficient time had been allowed for them to gain the avarice of the thieves the door would be swung to its proper place, the bolts replaced and all would be completed without the seal being broken.

The car would then proceed to its destination without any suspicion of its having been tampered with. All of the cars pilfered are those consigned to persons many miles distant from the place where they were entered, and in consequence it would be some days before the loss would be discovered. The principal points at which the stealings have been carried on are Kansas City, Toledo, St. Louis, Moberly, and other important towns on the system. The detection of the plot involved the study of thirty of the employees implicated in the same, and the arrests will follow in a few days.

Views of a British Ex-General.

LONDON, Feb. 13.—Mrs. Davis, formerly consul at Honolulu for Great Britain, is said in an interview Sunday that the principal cause of the trouble in Hawaii was composed of men of meanness, indifference and property. The accession of the Princess Kaiulani to the throne, he says, is the true solution of the present trouble, as the Hawaiians would never consent to any change in the status of the islands. It is a pity that England did not interfere in the government of the islands some time ago and thus avert the present crisis.

Trouble Causes Seizure.

CLEVELAND, Tenn., Feb. 13.—F. F. Swain, a well-to-do citizen living at the village of New Market, has added to his count of domestic troubles. His wife is in wreathed health and this fact weighed on his mind to such an extent that it is thought he preferred death to a life of misery. He won considerable distinction in the late war as a soldier of the Forty-fifth Tennessee regiment.

A Lakeside Cemetery.

COLUMBUS, W. Va., Feb. 13.—News has been received here that Mountain Lake, a large body of water in Craig county, Va., near West Virginia boundary line, is disappearing. The water, which usually overflows the basin at this time of the year, is now twenty feet below the outlet and is still sinking.

The Game Saved Up.

COLUMBUS, Ind., Feb. 13.—The crap game of Palmer & Bozel, of this place, was tapped to the tune of \$20,000 Saturday night. Crooked dice were run upon the bank during the play. The "big" game was won by John Bulger Fulton, one of the slickest and most notorious gamblers in Indiana.

A Street Duel.

BIRMINGHAM, Ala., Feb. 13.—Doc Sides, a well-known hard character, shot and killed T. T. Kirk, postmaster at Gulf, Miss., early in this week. Sides, a native of this state, was the result of an old feud. One of Sides' brothers was wounded in the fight.

Bled to Death.

CLARKSBURG, W. Va., Feb. 13.—Enoch Chidlers, aged 15, accidentally drove the small carriage, a pony and trap into the flesh part of his chest, severing one of the large arteries. He died from loss of blood in about five hours.

Demand for Leesop's Pardon.

PANAMA CITY, Fla., Feb. 13.—Most of all parties demand the pardon of Ferdinand De Leesop whose conduct in his prison has produced the worst possible effect even among the clerical classes.

Zente still shaking.

ATREZA, Feb. 13.—The island of Zente has been shaken Sunday by several earthquakes, and the panic among the inhabitants is increasing.

THE PROTECTORATE.

Mr. Blaine, Minister Stevens' Action in Hawaii?

AUGUSTA, Mo., Feb. 13.—It is said here that Minister Stevens' coming in established the American protectionists over the Hawaian Islands was in line with a policy worked out by Mr. Blaine. The latter knew the
